Manufacturer's Declaration
Stryten Energy Branded Batteries and Chargers

On March 6, 2023, Stryten Energy unveiled new product names and labels for its industrial batteries and chargers. These products were previously labeled/branded as GNB Industrial Power.

This is to certify that the design, engineering, and product manufacturing remains unchanged from the GNB product to the Stryten Energy product. The only change is the name.

A handwritten signature in black ink that reads "Michael Berger".

Michael Berger
Director of Engineering
